## Come Ride with Us

The LWA has been the Lehigh Valley's bicycling club since 1951, with over 600 members. We represent a wide spectrum of cycling interests and abilities, from beginner road cyclists to gold medal winning track racers. Our ages range from early teens to late seventies.

In 2004 LWA merged with The Future Champions Cycling Club to form a new junior cycling club and racing group as part of the established Lehigh Wheelmen. Our large membership will provide stability and mentoring for all juniors interested not only in recreational cycling, but also competitive cycle racing.

Visit our website for a list of current club rides, activities, the latest club information, cue sheets and links to other cycling sites.

## Touring and Recreational Riding

Join the club's many social and recreational rides. If you are interested in family and youth cycling, email the Lehigh Wheelmen Junior Development Coordinator ([ghoover@ptd.net](mailto:ghoover@ptd.net)) or check the club ride calendar at [www.LehighValleyWheelmen.com](http://www.LehighValleyWheelmen.com)

## Racing

The LWA has a very active bicycle racing team. Our men, women and juniors compete at many levels on the road and on the track. Our Club promotes several races each year for the public as well as holding competitions exclusively for our members including monthly time trials and the club championship series.
